## **Professional Work Experience**

### “Phonic Bloom” – Design Team Member, Aug-Dec 2024

An interactive Augmented Reality mobile application that interprets the data sculpture in the Woodland Community Library’s children’s reading room both sonically and visually to a variety of audience.

- Designed 10+ graphics for the game presentation, a timeline graphic, and the project logo with an animated version
- Created a brand guide using Figma
- Worked in a group of four designers to conceptualize ideas and divide tasks
- Collaborated with other teams and ensured consistency across all content

### Ilani Casino and Resort – Security Officer, 2020-Present

During my 4 years at Ilani, I have solidified my confidence in my customer service and communication skills. I switched to working fulltime after completing my final class in December of 2024.

- Understood and trained multiple employees on different rolls in the department
- Managed stress while dealing with multiple high intensity situations
- Stayed organized and communicated efficiently with other officers, supervisors, security dispatch, and other departments
- Adapted a keen eye for small details

## **Education**

Bachelor of Arts in Digital Technology and Culture, Minor in Communication, Minor in Fine Art  
Washington State University Vancouver - Graduation May 2025
